*** Within 3 pages**

	Name in Full	MOTOHIKO KATO, MD, PhD
	Country	Japan
	Affiliation	Center for Diagnostic and Therapeutic Endoscopy, Keio University School of Medicine
	Email	Keio University School of Medicine

Educational Background

Osaka University, Graduate School of medicine, Suita, Japan – March 2013

Doctor of Philosophy in Medicine

Osaka University, Graduate School of medicine, Suita, Japan – March 2002

Doctor of Medicine

Professional Career

Assistant to the Hospital Director (concurrently) , Keio University Hospital, Tokyo, Japan-
October2025 to present

Keio University School of Medicine, Tokyo, Japan–April 2023 to present

-Professor and Director in Center for Diagnostic and Therapeutic Endoscopy

Keio University School of Medicine, Tokyo, Japan–April 2022 to March 2023

-Associated Professor in Cancer Center

Keio University School of Medicine, Tokyo, Japan–April 2017 to March 2022

-Assistant Professor in Gastroenterology

National Hospital Organization Tokyo Medical Center, Tokyo, Japan–April 2014 to March
2017 Staff physician specializing in Gastroenterology

Research Field

Endoscopic diagnosis & therapy for gastrointestinal tract neoplasm.

Papers, Books, etc. presented or published by your name
(topic title, year, conference name or presenting books)

Feasibility of modified double layered suturing for a large mucosal defect after duodenal endoscopic submucosal dissection (origami method). *Endoscopy*. 2025 May;57(5):478-483.

Resectability of Small Duodenal Tumors: A Randomized Controlled Trial Comparing Underwater Endoscopic Mucosal Resection and Cold Snare Polypectomy. *Am J Gastroenterol*. 2024 May 1;119(5):856-863.

Outcomes of endoscopic resection for superficial duodenal tumors: 10 years' experience in 18 Japanese high volume centers. *Endoscopy*. 2022 Jul;54(7):663-670.

Water pressure method for duodenal endoscopic submucosal dissection (with video). *Gastrointest Endosc*. 2021 Apr;93(4):942-949.

Scheduled endoscopic surveillance controls secondary cancer after curative endoscopic resection for early gastric cancer: a multicentre retrospective cohort study by Osaka University ESD study group. *Gut*. 2013 Oct;62(10):1425-32.
