

Professor Jeong Min Lee currently serves as a Professor in the Department of Radiology at Seoul National University Hospital, where his extensive research and academic contributions have established him as a leader in the field. With a prolific output of over 500 scientific articles in internationally acclaimed journals, Professor Lee is an esteemed member of the editorial boards for notable publications including Radiology, the Korean Journal of Radiology (KJR), Cancer Imaging, Abdominal Radiology, Abdominal Imaging, and Liver Cancer.

His excellence in radiology has been recognized with fellowships from the European Society of Gastrointestinal and Abdominal Radiology (ESGAR) and the International Society for Magnetic Resonance in Medicine (ISMRM), and honorary memberships in the American Roentgen Ray Society (ARRS), Sociedad Española de Radiología Médica (SERAM), Japan Radiological Society (JRS), Mongolian Society of Radiology, and Chinese Society of Radiology (CSR). As a distinguished member of The Korean Academy of Science and Technology and the National Academy of Medicine of Korea, Professor Lee's leadership extends to his roles as President of the Korean Society of Radiology (KSR), Chair of the Educational Committee for the Asia-Oceanian Society of Radiology (AOSR), and Treasurer of the Asian Society of Abdominal Radiology (ASAR).

Professor Lee's exceptional dedication to medical education has been recognized with the prestigious 2025 RSNA Lifetime Honored Educator Award, marking the pinnacle of his educational career. He has delivered more than 300 invited lectures at academic symposiums, conferences, and educational events worldwide, establishing himself as one of the most sought-after educators in radiology. His commitment to education and research has been further honored with several awards, including the Seoul National University Academic Award (Research) in 2019, the RSNA Honored Educator Award in 2022~2024, the RSNA Lifetime Honored Educator Award in 2025, the Asan Medical Award in 2022, the Wunsch Medical Award in 2021, and the Seoul National University Hospital Academic Award in 2022.

Professor Lee's research interests focus on MR imaging diagnosis of hepato-biliary and pancreatic diseases, multiparametric MRI for oncologic diseases, US elastography and MR elastography, image-guided tumor ablation techniques, and contrast-enhanced ultrasound for liver tumors. He has made notable contributions to the field, especially in the diagnosis of hepato-biliary-pancreas cancer, expertise in contrast-enhanced US, dual-energy CT, functional MR imaging for oncologic diseases, and pioneering research in image-guided tumor ablation for liver cancers.
